Equipment obtained from BNSF by Motor Carrier will be governed by the terms and conditions of this Addendum. BNSF-owned/controlled container use charges will be billed directly to the customer to whom the container is assigned as specified in Exhibit A to this Addendum. To obtain BNSF-owned/controlled Equipment from a BNSF Intermodal hub, Motor Carrier must be able to provide a valid executed copy of the BNSF Addendum to the UII Agreement.

BNSF is a participant in a neutral chassis pool for domestic containers (Domestic Neutral Pool Chassis) that is managed by an independent third party pool operator. The use of Domestic Neutral Pool Chassis and associated charges are subject to the terms of the pool operator's chassis use agreement. The pool operator's chassis use agreement allows parties authorized by the pool operator to utilize Domestic Neutral Pool Chassis and establishes rules governing interchange among railroads. II. DESTINATION STORAGE

A. Free Time Commences

Upon notification.

B. Amount Of Free Time

Complete detail on BNSF Intermodal Storage can be found in the BNSF Intermodal Rules and Policies Guide, last revised 09/27/18, (Item 37: Storage at www.bnsf.com).

(BNSF Railway Continued)

At destination, free time is day of notification plus twenty-four (24) hours at Group 1 facilities or day of notification plus forty-eight (48) hours at Group 2, including Saturdays and Sundays. Exhibit D attached to this Addendum outlines Group 1 and 2 facilities, and associated free time.

The day of notification occurs before storage free time and chargeable days.

The event used to determine the day of notification will be the Integrated Service Planning (ISP) date and time (where applicable) when it occurs after the notification (Patron Notification). Otherwise, the event used to determine the day of notification will be either the Patron Notification (PN) or Estimated Time of Notification (ETN), whichever occurs at the later date and time.

If the day of notification falls on a holiday, the next day will be considered the day of notification. If a holiday occurs during the free time, the holiday is not included in the calculation of free time.

Holidays shown below:

January 1	July 4	December 24
Easter Sunday	Labor Day	December 25
Memorial Day	Thanksgiving Day	

If Motor Carrier is the party to be notified of Equipment availability at destination, notification to Motor Carrier will occur as designated on the Shipping Instructions twenty-four (24) hours per day, seven (7) days per week. BNSF is not responsible if the notify party does not receive the notification unless transmission error is due to the fault of BNSF.

All notification refusals must be submitted in writing and faxed to the BNSF Notification Desk at 1-800-699-9368. Notification refusals do not dismiss storage charges, and free time will not be restarted.

Report any Equipment requiring repairs to the BNSF hub personnel. Repair to private equipment is the shipper's responsibility.

C. Charges Per 24-hour Period

Storage day is from 12:00 a.m. to 11:59 p.m. Storage charges are applicable to all Equipment whether owned or leased by a railroad or privately owned.

At destination, the notify party will be responsible for payment of all storage charges. For all equipment, when applicable free time expires, the storage charge is \$150 per day (or fraction of a day) for each of chargeable days one, two, and three and \$200 per day (or fraction of a day) for day four and any subsequent days at Group 1 and 2 facilities. These charges apply on Saturdays, Sundays, and holidays. The amount of free time varies between Group 1 and Group 2 facilities. See Exhibit D.

Storage charges will begin the first 12:01 a.m. after notification if a Motor Carrier refuses Equipment once free time has expired.

Private bare chassis not removed within the twenty-four (24) hour period following notification, incur a \$150 per day charge at Group 1 and Group II facilities per vehicle for each fraction or full day, including Saturdays, Sundays, and holidays.

When Motor Carrier interchanges any shipment to BNSF for outbound rail transportation that is subsequently removed from BNSF for any reason whatsoever prior to rail movement, storage charges of \$150 per day at Group I and Group II facilities per vehicle for each full or fraction of a day, including Saturdays, Sundays, and holidays will be assessed to Motor Carrier.

If Motor Carrier, due to strike by railroad or Motor Carrier's employees, should experience difficulty in interchanging equipment, it may apply in writing to BNSF for relief from charges within fifteen (15) days following the strike. BNSF shall have sole discretion to grant or deny relief.

III. CONTAINER/CHASSIS USE/RENTAL/PER DIEM CHARGES

A. Type of Equipment

Not applicable to Motor Carriers for BNSF-owned/controlled containers/chassis.

1. Free Time Allowance

2. Container/Chassis Use/Rental/Per Diem Charges

Not applicable to Motor Carriers for BNSF-owned/controlled containers/chassis.

IV. METHOD OF INVOICE DISPUTE RESOLUTION

A. Storage and Container/Chassis Use/Rental/Per Diem Billing

An individual bill for Equipment incurring storage charges will be submitted by BNSF on a daily basis following Equipment removal from BNSF's terminal.

Motor Carrier must submit billing disputes to BNSF within thirty (30) days of invoice date. BNSF will use commercially reasonable efforts to respond to a billing dispute within thirty (30) days of receipt. In the event Motor Carrier fails to pay all uncontested amounts due within thirty (30) days of the invoice date, this Addendum shall be subject to immediate cancellation by BNSF along with payment of interest on such unpaid sum from thirty (30) days after its invoice date to the date of payment at an annual rate equal to (i) the greater of (a) for the period January 1 through June 30, the prime rate last published in The Wall Street Journal in the preceding December plus two and one-half percent (2 ½%), and for the period July 1 through December 31, the prime rate last published in The Wall Street Journal in the preceding June plus two and one-half percent (2 ½%), or (b) twelve percent (12%), or (ii) the maximum rate permitted by Law, whichever is less. Motor Carrier will not be permitted to pick up Equipment at BNSF terminals during the cancellation period. In the event any charge due remains unpaid more than sixty (60) days from invoice date and BNSF refers collection of such charge to an attorney, Motor Carrier agrees to pay, in addition to said charge, all costs for attorneys' fees and collection expenses.

B. Unresolved Disputes

All unresolved disputes may be resolved through judicial means.

V. OTHER CHARGES

Provider reserves the right to include a \$45.00 administration fee to any invoice.

Part X. Street Turns

When a Motor Carrier has possession of equipment and desires to employ that equipment in a second booking (i.e., deliver cargoes on a Full Import booking and then use that same equipment for loading cargoes on a Full Export booking), the Motor Carrier must first obtain authorization / approval from Provider's designated agent for this activity at <https://www.avantida.com/en/the-platform/>. Approval of such reassignment ("street turn") shall serve as the termination of Import Per Diem calculation and start Export Per Diem calculation. If designated agent approves the reassignment/transfer of equipment, the Motor Carrier shall incur a usage charge in the amount of \$30.00.

If a Motor Carrier conducts a street turn without such approval, that Motor Carrier will be assessed a fee in the amount of \$100.00 by the Provider.

4. USE CHARGES; SPECIAL APPLICATIONS

- 4.1** Motor Carrier shall pay Provider Use Charges on the Equipment as set forth in Schedule "A", which is annexed hereto and made a part hereof, for each day elapsed from the date of Interchange of each unit of Equipment until the date of return of each unit of Equipment unless otherwise expressly agreed to by Provider in writing.
- 4.2** When Equipment is damaged and reported to the Provider pursuant to paragraph 2 of this Agreement, Use Charges will cease from the date of notification requesting authorization to repair damages exceeding \$50.00 until repairs are authorized or instructions given as to disposition by Provider.
- 4.3** If Provider requests Equipment to be returned to a designated depot or location for repairs, Motor Carrier will, unless otherwise agreed to between the parties, return such Equipment within five (5) days after receipt of such request, otherwise Use Charge will be reinstated.
- 4.4** Use Charge shall not be paid by an intermediate Motor Carrier on Equipment returned to a designated depot or location for repairs under paragraph 4.3. Equipment moving under this paragraph shall be so indicated on Equipment Interchange Receipt.
- 4.5** When Equipment has been reported to the Provider under the provisions of paragraph 3 to be lost, stolen or destroyed, the Use Charge shall be suspended from the date of written receipt by the Provider of telephonic notification until receipt of written notification five (5) days thereafter. If Provider does not receive written notification within said five days, the Use Charge shall be reinstated until written notification is received. Upon receipt of such written notification, the Use Charge will be suspended until thirty (30) days after the statement of replacement value or depreciated value has been received by the Motor Carrier, and then will run continuously until payment in full is received by Provider.
- 4.6** In the event Equipment is transferred by Motor Carrier to third person not a party to this Agreement, Motor Carrier will remain responsible for the Use Charges pursuant to this Agreement. In addition, in such event, any such third party receiving Equipment from Motor Carrier directly or through an agent or other representative shall be responsible for all duties and liabilities to Provider as if it were the Motor Carrier.
- 4.7 Recovery** – The payment of the depreciated replacement value invoice for lost, stolen or damaged equipment is not a transfer of title and the Provider and/or Equipment Owner retains all rights to the Equipment. In the case that lost or stolen Equipment is recovered, the Provider will refund the depreciated replacement value payment to the Motor Carrier, less any cost of recovery, damage repairs or any other cost and usage charges through the date that the Container is returned to active status with the Provider.
- 4.8** In the event the Motor Carrier has requested empty rail billing of an emptied import container in their possession by e-mail and said request is granted and processed by the Provider (if Motor Carrier request is verbal, e-mail confirmation must be furnished to Motor Carrier by Provider), if such container is in turn used in connection with a double-move (defined as inland transportation whereby Motor Carrier transfers the node from full import container to full export container in one single move) and the Provider is not notified of this by the Motor Carrier, the Motor Carrier is responsible for paying, administration fee of \$250 USD, plus any additional costs, fines or penalties which are associated as a result of the error. Approval of such reassignment ("street turn") shall serve as the termination of Import Per Diem calculation. Upon Provider's approval, the start date for export use will begin and Motor Carrier will be allowed 7 additional calendar days free time for the export booking. The Motor Carrier shall incur a usage charge depending on if the double move is used in connection with a Carrier Haulage (CH) or Merchant Haulage (MH) move for each leg of the double move (import/export combination) as follows:

In both instances, Hapag-Lloyd agrees to invoice the customer rather than the Motor Carrier for any Per Diem incurred. Failure to comply with this process does not remove the MCs right to dispute per diem charges, as per section E.6.c of the Agreement. Failure for the Motor Carrier to comply also does not remove or reduce any obligation of the Provider under the UIIA.

1D. Reassignment/Transfer of Equipment to New Booking ("Street Turn")

When a Motor Carrier has possession of ZIM equipment and desires to employ that equipment in a second booking (i.e., deliver cargoes on a Full Import booking and then use that same equipment for loading cargoes on a Full Export booking), the Motor Carrier must first obtain authorization / approval from ZIM through its designated agent Avantida N.V. via Avantida's platform at <https://portal.avantida.com>. In tendering such a request, the Motor Carrier must provide ZIM with relevant Export booking number. ZIM's approval of such reassignment ("Street Turn") shall serve as the termination of Import Per Diem calculation and start Export Per Diem calculation as per Paragraph 7, Section 1A. Approval of the reassignment/transfer of equipment shall incur a use charge as delineated in the Table of Charges, above. In the event that a Motor Carrier performs a Street Turn without approval from ZIM, an administrative fee in the amount of \$300 shall be charged to the Motor Carrier.

West Coast Ports

Activity at West Coast ports in California, Oregon, and Washington will be excluded from the Street Turn charge shown in the Table of Charges above. However, if ZIM equipment is Street Turned without ZIM authorization and approval, the Motor Carrier will be subject to the \$300 administrative fee.

(Zim Continued)

Note 1: Except that Holidays shall not be counted when computing Free Time. The Container must be returned to the Terminal from which it was removed unless otherwise directed by Ocean Carrier in accordance with Section E.1. of the UIIA.

Note 2: If container or chassis is not returned with the free time provided herein, Motor Carrier must give immediate written notification, via e-mail to zimperdiem@us.zim.com or by fax (866)256-2616

8. DISPUTE RESOLUTION:

Before litigation is instituted, Motor Carrier shall advise Zim in writing of any disputed items on Zim's invoices within 30 days of the receipt of such invoice(s). Zim will undertake to reconcile such disputed items within 30 days of receipt of Motor Carrier's notice and will either provide verification for the charges as invoiced or will issue a credit to the Motor Carrier's account for any amount not properly invoiced. Such disputes do not constitute valid grounds for withholding or delaying payments of undisputed charges as required by the Terms of this Agreement. In the event that charges have been verified by Zim and are again rejected and disputed by the Motor Carrier for whatever reasons, Zim and Motor Carrier reserve their rights and remedies under the law regarding payment of such charges. Zim reserves the right to use a designated third party billing vendor. Invoices received from Zim's designated third party billing vendors shall be disputed directly with the third party vendor.
